Their data is locked down in the database

Not in the interface. Row-level security means you can only ever read students enrolled in your own classes, and a student can only ever read their own — a guarantee that holds whatever the app asks for.

CPD

One hour earned per ten completed cases, with certificates your students download as a PDF

6 ranks

Intern through to Expert Pharmacist, with badges, streaks and a live leaderboard

881

real medicines with their classes, dosages, brands and manufacturers

Try it with one class.
